Kansas City Franchise Held Up

Kansas City Federal League Club Has Filed a Suit to Restrain the Federal League From Transferring the Franchise to Another Party—Injunction Served on President Gilmore as He Was Boarding Train for Buffalo Meeting—Suit Set for a Hearing on March 5th.

Chicago, Feb. 25.—An injunction issued by the circuit court late today will halt temporarily the transfer of the Kansas City Federal League franchise to P. T. Powers of New York, who was expected to be effected at the meeting of the league in Buffalo tomorrow. The injunction was issued after the Kansas City club had filed a suit to restrain the Federal league of professional baseball clubs from transferring the franchise to another party.

The writ of injunction was served on James A. Gilmore, president of the Federal League, just as he was boarding a train for the Buffalo meeting.

The bill recites that under the franchise given by the defendant league on February 23, 1914, it was understood that the Kansas City club could operate permanently as a member of the league and that consequently the club had assumed a great many obligations.

While admitting that loans had been made from time to time by the league, the club insists that these loans are offset by sums due from the defendant. The bill states that, although the club has repeatedly asked the league for a statement of its account, being ready to pay any just claims, the league has refused any such statement, although continuing to claim a balance due from the club.

The suit was set for a hearing on March 5th. A full accounting of the inside affairs of the Federal league, its expenses, its income and its losses, probably will be made at the hearing, according to counsel for the Kansas City club.

D. J. Haft and Solon T. Gilmore, the Kansas City delegation, who spent the day here in an effort to dissuade Federal league officials from transferring the franchise, left for Buffalo as soon as the suit was filed. They will attend the league meeting and make a further effort to retain the franchise.

In the other semi-final C. C. Pell outplayed Stanley G. Mortimer of the home club rather easily, although the full five games were gone through, 15-1, 9-15, 15-10, 12-15 and 15-7.

DAYVILLE ATHLETICS CHALLENGE BALTIC
Would Like to Arrange a Series for Eastern Connecticut Championship.

William Ornabee of the Dayville Athletic association issues a challenge to play the Baltic basketball team, claimants of the New London county championship, to play a series of games with the Dayville team for the championship of Eastern Connecticut. During the season the Dayville and Baltic teams have each won a game from the other and Taftville and Dayville have each won a game from the other. This is claimed in Dayville, gives the team here grounds for refusing its challenge. The Dayville proposition is to play a series of three games with Baltic, one at Baltic, one at Dayville, and, in case of a third game being required, on a neutral floor, the flip of a coin to decide whether this last game be at Taftville or at Dayville. Here's a chance for Baltic to do some business.

WELSH OUTBOXED WHITE.
Englishman Had His Opponent at His Mercy During Most of the Fight.

Milwaukee, Wis., Feb. 25.—Freddie Welsh outboxed Charlie White in a ten round, no-decision boxing contest at the Auditorium tonight, according to the almost unanimous opinion of sporting writers. Welsh appeared to have had the advantage of the rounds, the third to seventh inclusive. White shaded his opponent in the ninth and tenth and the first, second and eighth appeared to be even.

The Englishman had White at his mercy during most of the fight, being fast and clever and getting away with the third round. White was slow and seemed unable to solve Welsh's whirlwind style of attack.

ATTENDED HEARING ON LAKEVILLE SCHOOL REMOVAL.
Norwich Delegation Made Appearance Before Committee—Senator Barnes Spoke For Norwich Site.

(Special to The Bulletin.)
Hartford, Feb. 25.—A delegation of representative Norwich citizens were at the hearing this afternoon at the state capital before the committee on humane institutions, when consideration was given to the proposed act to authorize the board of trustees of the Connecticut School for Imbeciles to sell, for not less than \$25,000 the buildings and grounds now comprising the plant of the school in Lakeville. The act also provides for a change in name to the Connecticut Training School for Feeble Minded.

Dr. George Blumer, chairman of the board of trustees of the school, of the school by the Knight family in 1858 and that was formerly taken over by the state in August, 1913, at a cost of \$25,000. The school is located in the resident portion of the village, bounded by private grounds on the sides. The school property fronted on a lake where the wandering inmates might be drowned and in the rear was a much traveled highway where the stray imbecile was liable to be killed by automobiles. The amount of land is only six acres and occupied to such an extent that there is no opportunity to give the inmates exercise or recreation. The buildings were erected in 1858, all are of wooden construction and joined by wooden corridors, some being three stories high and the whole is a veritable trap where children who are unable to help themselves would probably be burned to death in the event of fire at night. The conditions are too restricted and not adapted for such a school. The sewerage must have attention and this cannot be done for less than \$25,000; there is no room for development and expansion. More land is needed to have some of the inmates self-supporting and to make them happier and healthier. The present is not a desirable location, for while it is more or less isolated it is not to be convenient to the railroad. The institution is crowded, so much so that the beds being so close together that the children practically sleep in one long, wide bed, and there is more interlosteria than would be if the conditions were changed.

If the institution is to remain in Lakeville it will be necessary to make considerable extension and improvement to the plant and that would mean an expense of at least \$100,000, as there are now 300 patients in the schools and the number is on the gradual increase. It would be economy to remove the school elsewhere and Dr. Blumer said we ought to look ahead and not duck this matter and saddle a future generation with a proposition.

Attorneys Had to Rise Early.
Seven New London lawyers were called from their beds this morning and summoned by the state to appear as witnesses in the trial of Attorney Morgan at Norwich. It was imperative that the lawyers be ready early this morning and the

State Policeman with the Subpoena
could not reach the witness stand Wednesday night. He started in 6:30 this morning, calling at homes of the attorneys by telephone to inform them of the demands of the court that they appear—New London Day.
